Buckeye Beach Park LLC

# Existing & Proposed Landscaping

Since 2016 we understand that several trees require removal and trimmed. After several bids, we realized that the cost was exorbitant due to the older Mobile Home below the trees. Our goal is to have the services of, trimming and removing dead trees and cottonwood trees which multiply quickly while the park is fairly empty.

Buckeye Beach Park LLC

# Existing & Proposed Signage

This is our current sign. Once cleaned, we have a steel logo and numbers which are supposed to be attached to the Sail.

The interior of the boat is to be painting black.

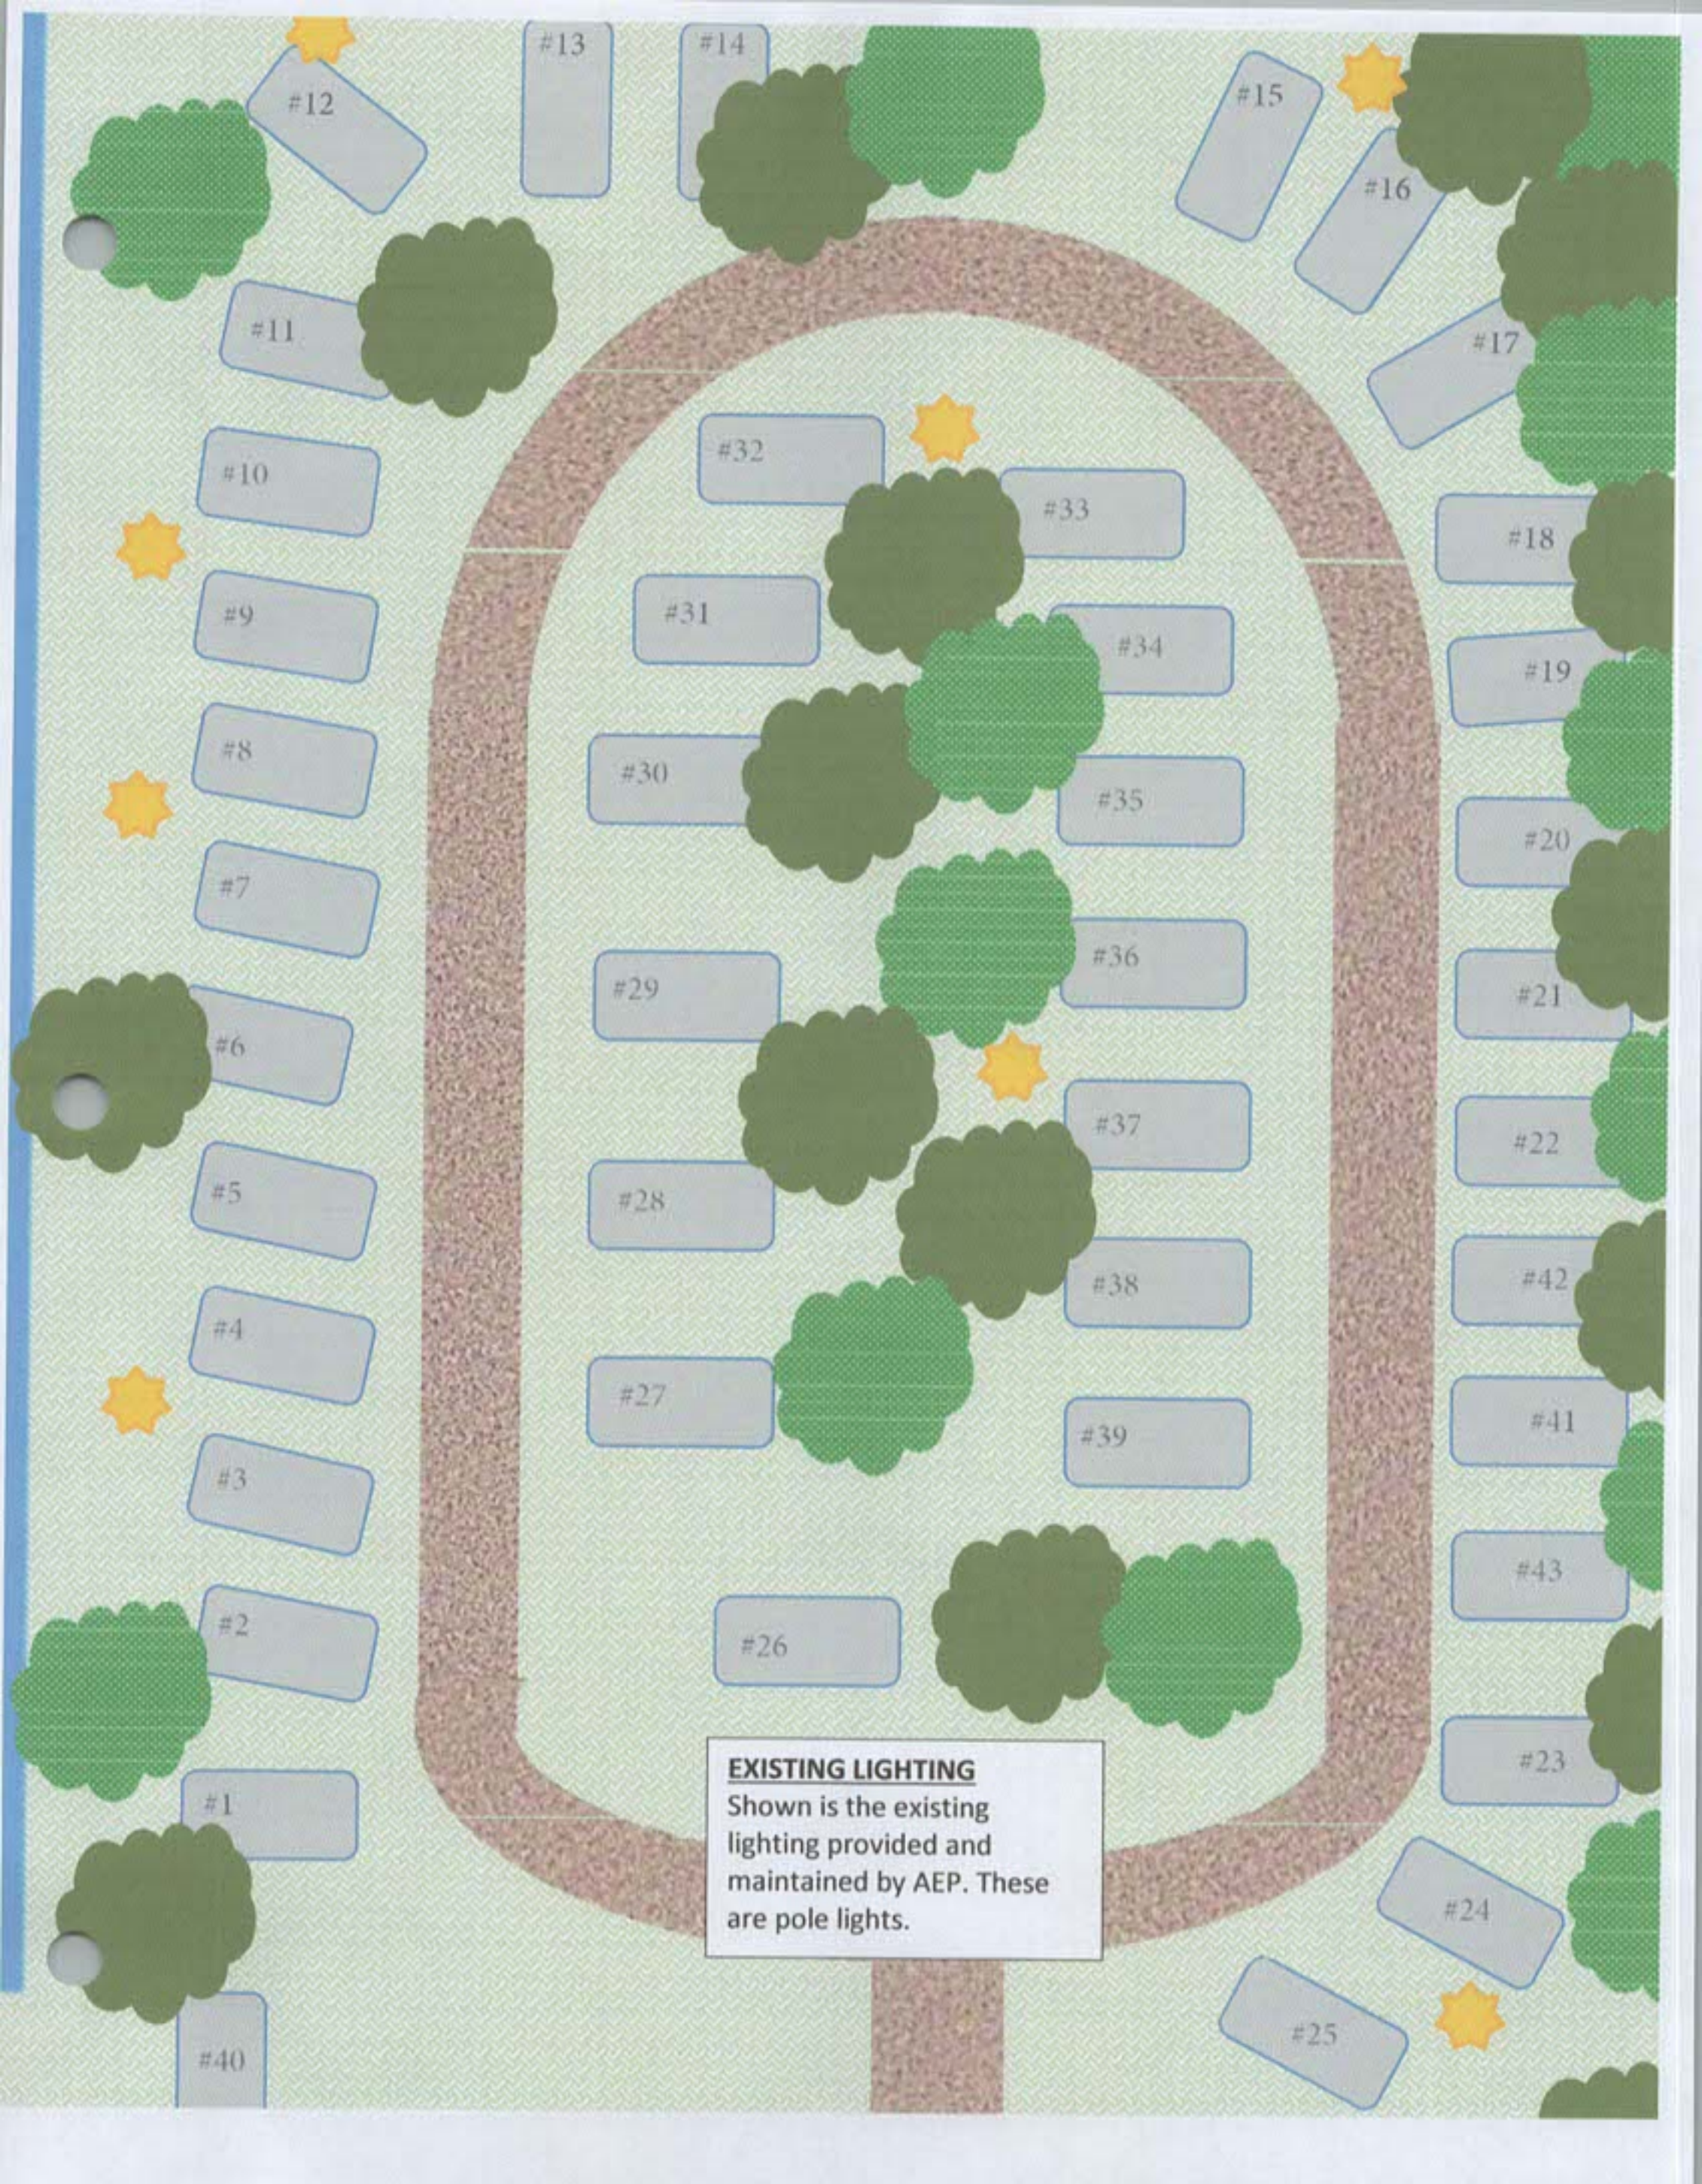

A landscaped back drop with spotlight solar lighting was part of the initial plan of action and will follow in the upcoming year.

Buckeye Beach Park LLC

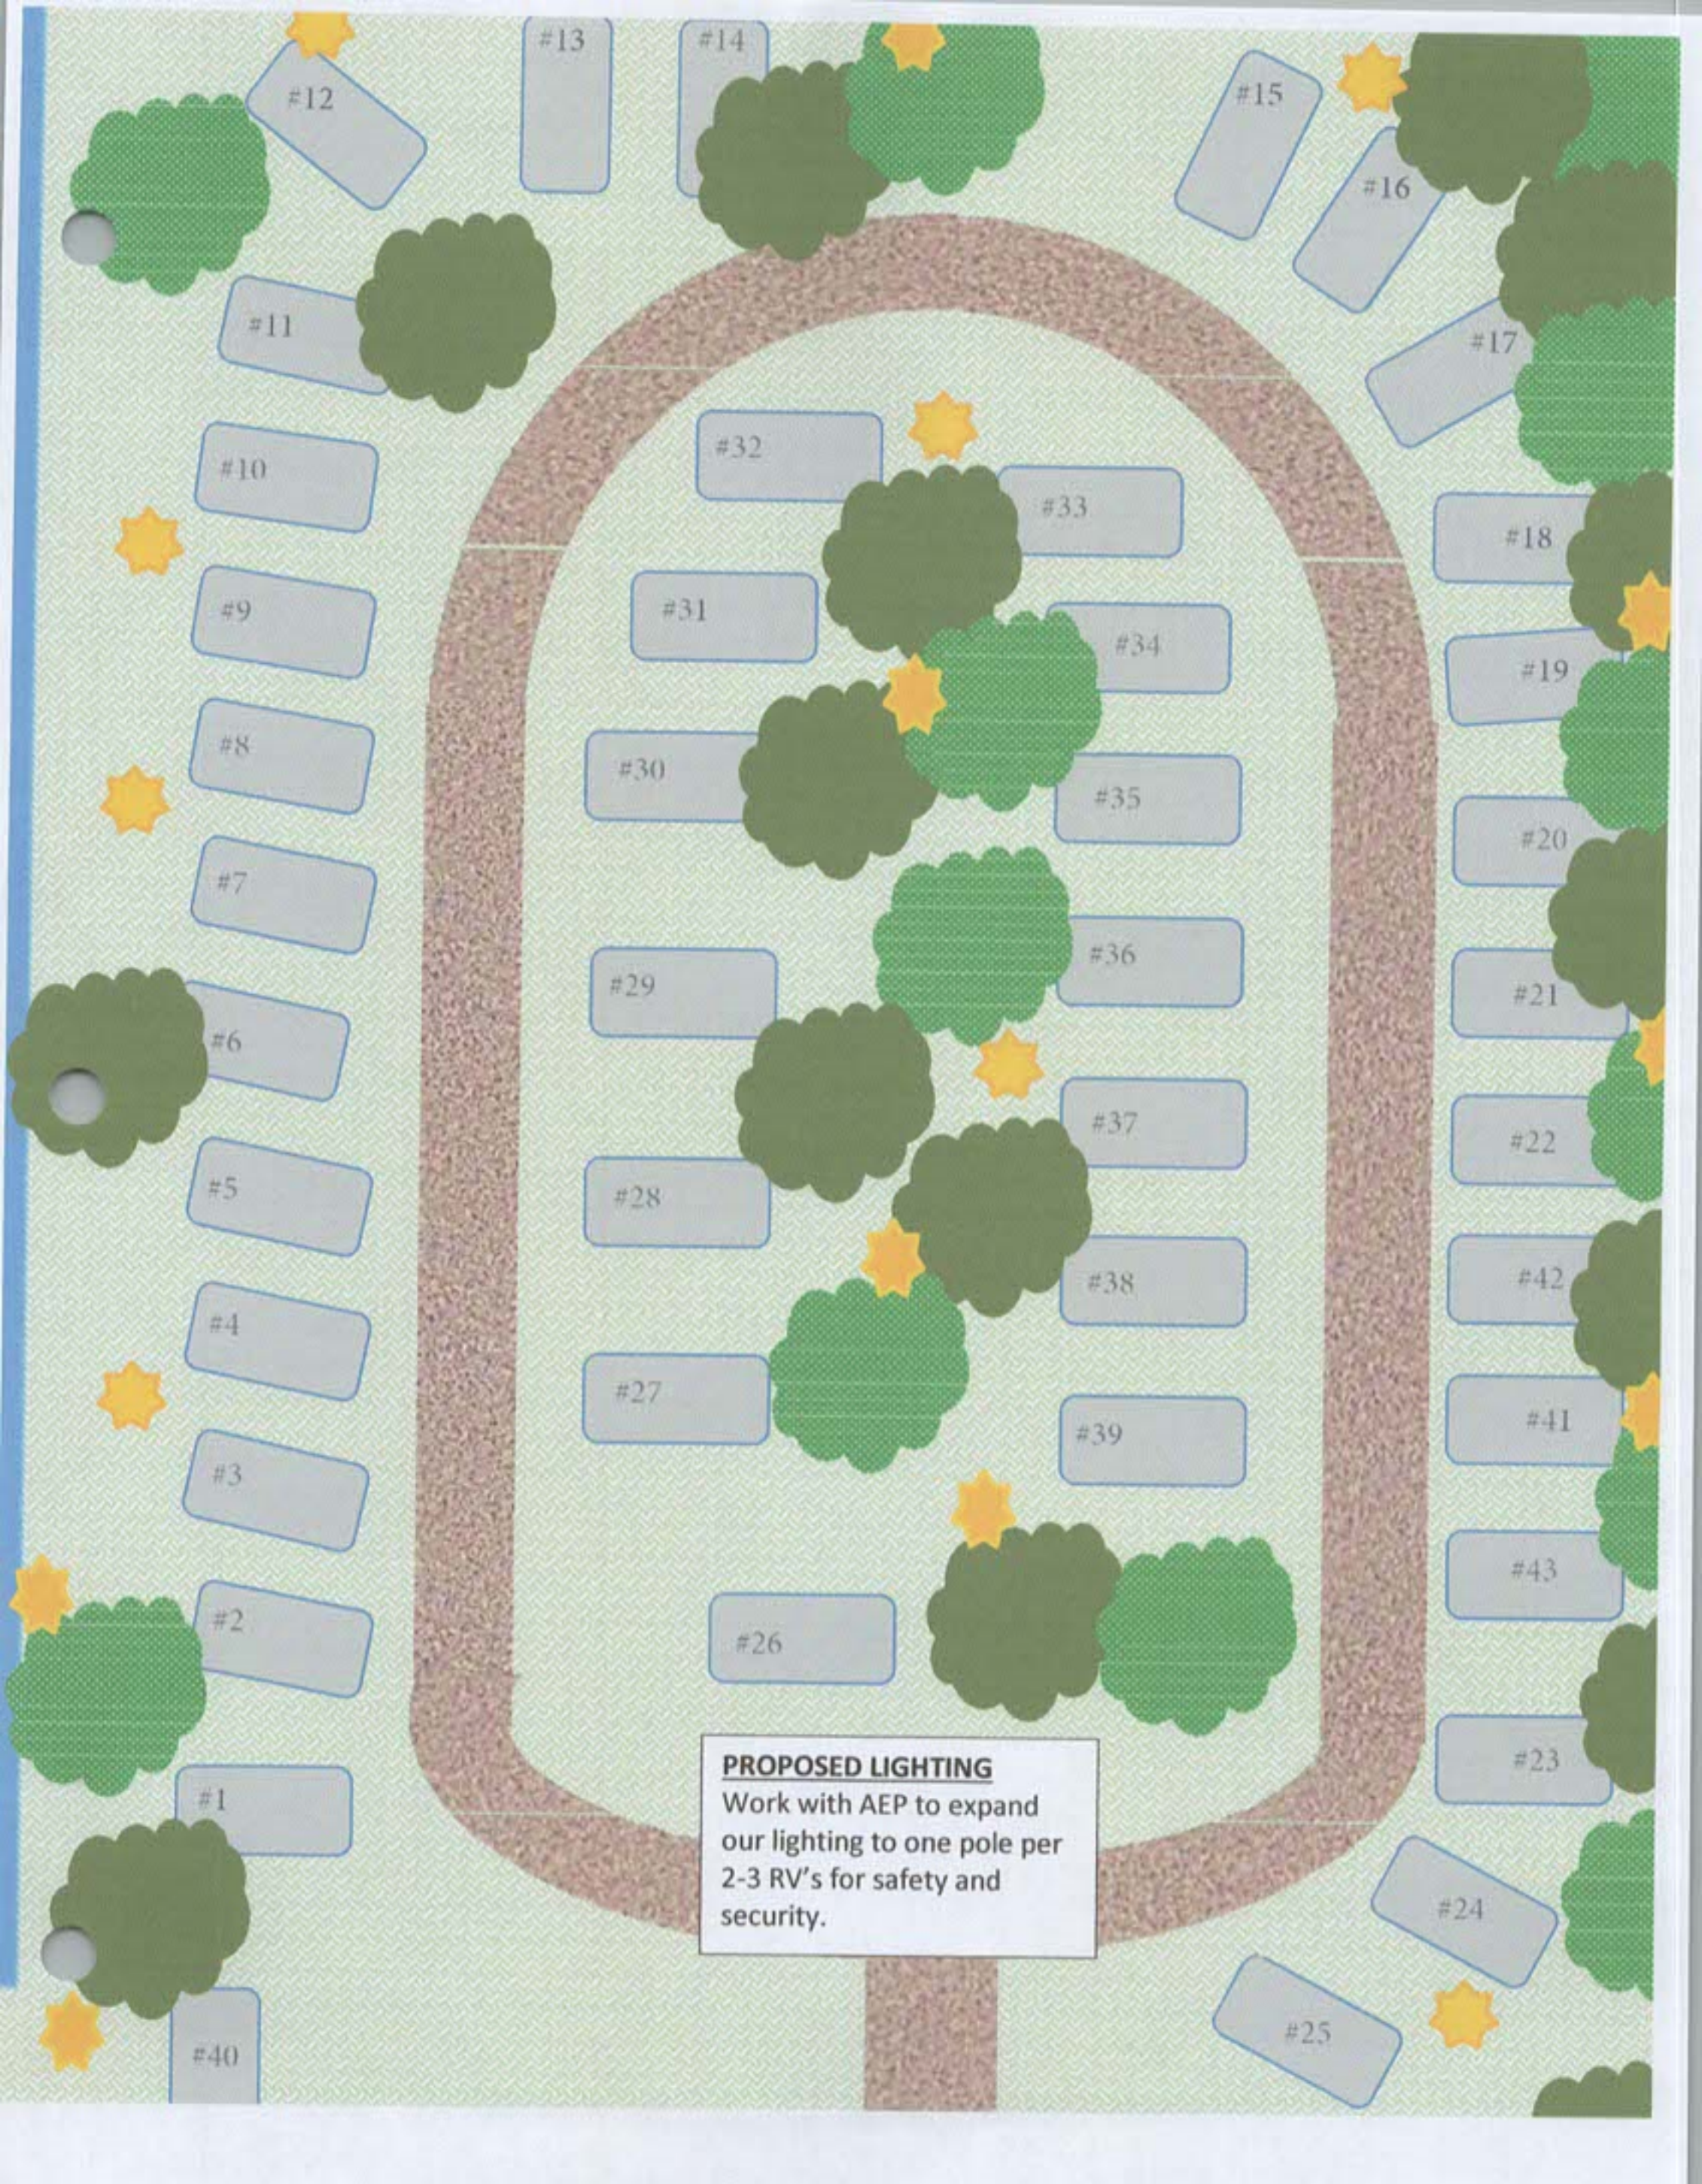

# Existing & Proposed Lighting

**EXISTING LIGHTING**  
Shown is the existing lighting provided and maintained by AEP. These are pole lights.

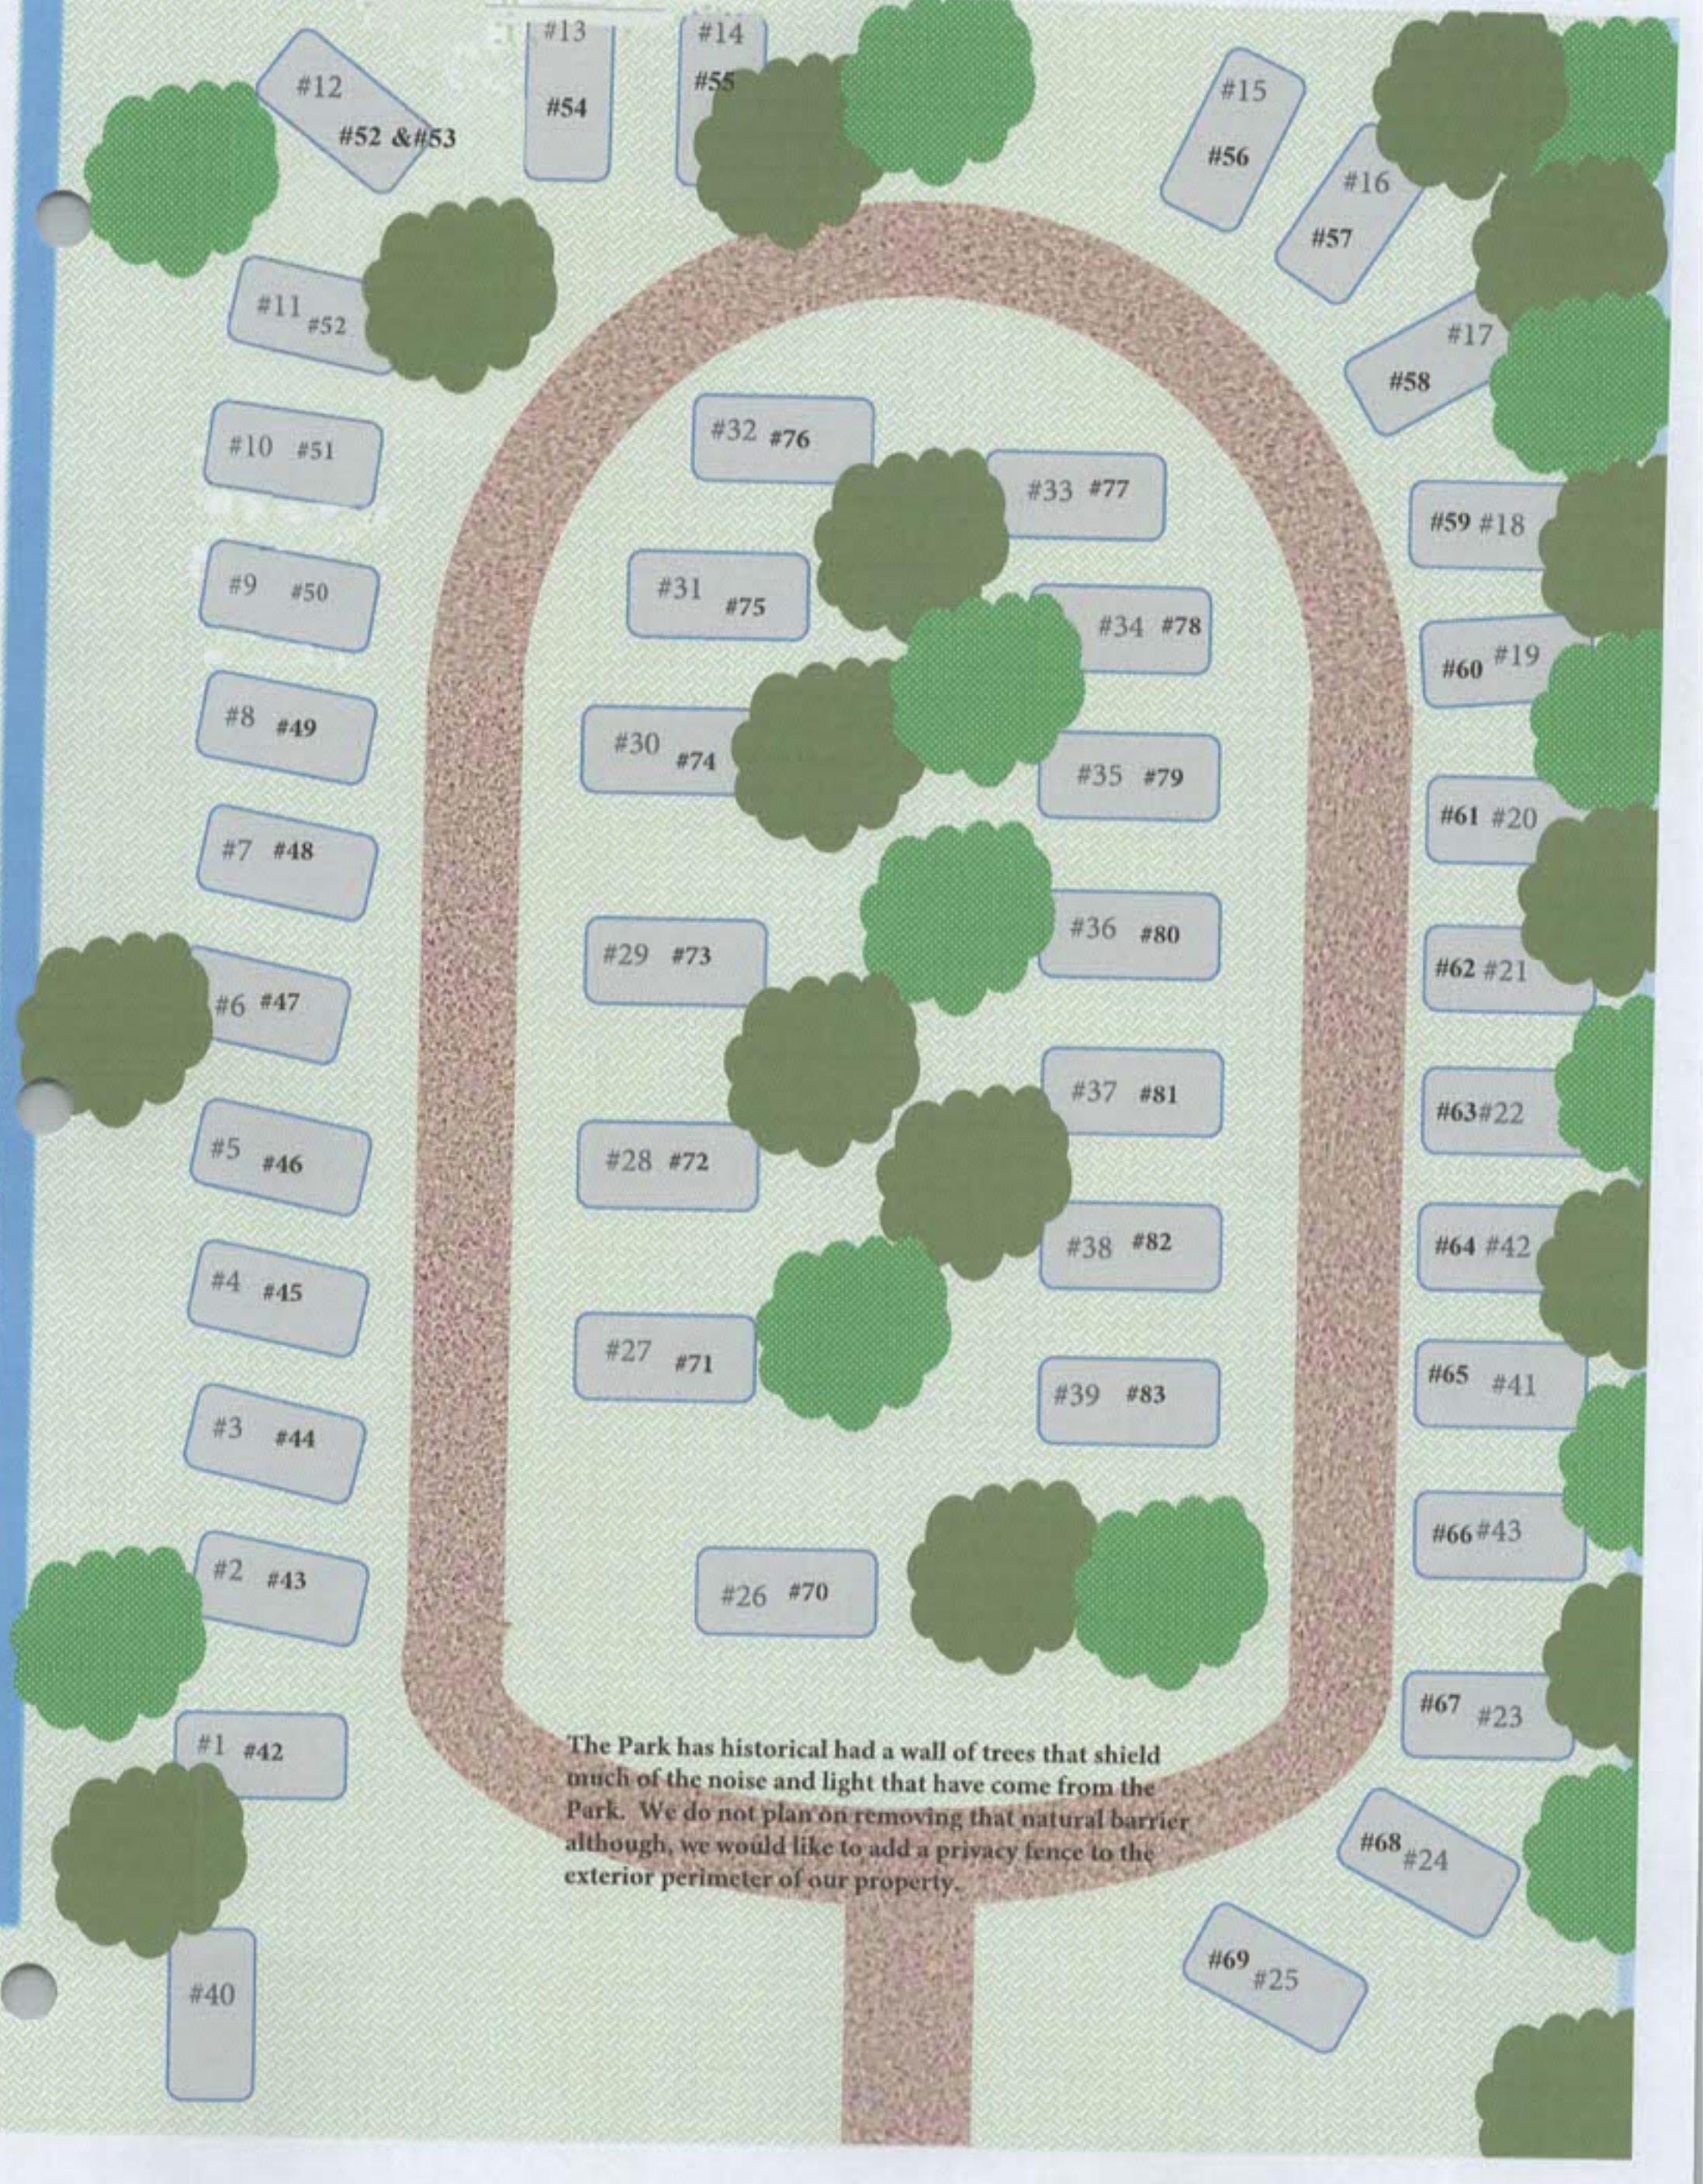

**PROPOSED LIGHTING**  
Work with AEP to expand our lighting to one pole per 2-3 RV's for safety and security.

Buckeye Beach Park LLC

# Existing & Proposed Noise Control

The Park has historical had a wall of trees that shield much of the noise and light that have come from the Park. We do not plan on removing that natural barrier although, we would like to add a privacy fence to the exterior perimeter of our property.
